

## BUMP STEER KITS - GOLF & FOCUS

Whiteline's new range of bump steer kits are designed to change bump steer characteristics depending on driving conditions and is achieved via extended tie rod ends (KCA314) or by a combination of mounted spacers to reposition the steering rack.

KCA314 - **MOTORSPORT** Reduces factory toe out from 5mm to 0mm (at 40mm bump)

KCA405 - Reduces factory toe out from 6mm to 1mm (at 60mm bump)

For racing it is beneficial to reduce the amount of bump steer to give a more positive feel, & reduced understeer.

## HUGE RANGE OF NEW CASTER KITS

Is there such a thing as too much caster? No, and here's why:

Improved steering feel and self-center increases dynamic camber (on turn).

Maximize tyre contact patch during braking and acceleration.

Maximize tyre contact patch during roll.

Improve turn-in response.

Increase directional stability.
